GREENVILLE.

Annual Washington Birthday Social of Hook and Ladder Company, No. 2—Sunday School Teachers Meet—Local Notes.

The annual Washington birthday celebration given by the Greenville hook and ladder company, No. 2, took place in the company's hall on Tuesday evening and as usual the attendance was large, including Fire Commissioners Ely and Hoggan, Chief Howard, Chief Stanton, Councilmen Heath and Geer, Chief Wade U. Webster of the Williams department, and a large number of engine company, No. 2, and ex-fire commissioners John T. Sullivan, C. O. Murphy and P. J. Hartley. At eight o'clock the members and guests took their places at the tables. After the singing of American hymns, a refreshment was enjoyed; sandwiches, coffee and fruit were served and cigars were passed.

Foreman Murray, acting as toastmaster, in his remarks extended a hearty welcome to all. He expressed the company's appreciation of the work of the fire commissioners in recommending the fire department and the fact that he and every member of the company was proud of. Selections by a quartette from Baltimore were heard.

Chairman Ely of the fire commissioners said that this was his first time to attend one of these parties and he was pleased to meet the members of this company. He made reference to the fact that the best of feeling exists between the commissioners and the Greenville companies.

Chief Stanton of the Williams department introduced and he was pleased to meet the members of this company. He made reference to the fact that the best of feeling exists between the commissioners and the Greenville companies.

The next number was the singing of Silver Threads Among Us, introduced by Chief Stanton. The singing was well rendered and the company was pleased to hear it.

Chief Stanton of the Williams department introduced and he was pleased to meet the members of this company. He made reference to the fact that the best of feeling exists between the commissioners and the Greenville companies.

The next number was a bass solo by Mr. Garrett, who was followed by a song by Chief Wade U. Webster of Williams department, who extended congratulations to the company. During the evening the company was entertained by a fire in his home city, and later that it had been gotten under control.

Foreman Murray said that Mayor Lippitt, who was to deliver an address on Washington, was unable to be present, much to the regret of the members.

Two solos, Bonnie Mary, and Killarney, by Mr. Bailey of Baltic closed the program.

The committee of arrangements comprised Howard A. Spalding, Alex. Morrison, Charles Drucker, Henry P. Kullus, William Henderson, and the reception committee, Joseph Henderson, E. B. Corey, William McKnight, Charles Twist and John Telford.

Sunday School Teachers Meet.

The teachers in the Sunday school of the Greenville Congregational church held a meeting at the home of Supt. William Crowe on Central avenue, Tuesday evening. There was a good attendance and the meeting was a very successful one.

The Sunday school teachers have been held from time to time in the past, but it is now planned to hold them regularly on the last Tuesday of each month.

Persons.

Fred Spencer was a visitor at his home in Westerly Monday.

Mrs. Eveline Lundberg of Central avenue has gone to New York for a two weeks' stay.

William Cummings, who has been employed in Hartford for several weeks, has returned home.

Johnston Barnfield is able to be out, after having been confined to his home, on Fourteenth street, for several weeks.

SUDDEN DEATH OF FREDERICK A. BILL

Occurred at His Home in Springfield Early Tuesday Morning from Acute Bright's Disease.

The news of the death of Frederick A. Bill at his home in Springfield was learned with great surprise and sincere regret by his many friends in this city, it having occurred about six o'clock Tuesday morning from acute Bright's disease, at his home No. 123 Maple street, Springfield. He was taken ill on a western and southern trip, when he took cold. He had been home for two weeks, but his condition was not considered serious.

Frederick Abbott Bill was widely known here, Norwich being his former home, although he has not lived here for many years. He was a frequent business visitor, where he owned much property. He was a man of excellent characteristics, with a good word for everyone. He was essentially a home man and it was there his true nature was displayed. He always had a cheery welcome and a warm heart and showed his good nature to everyone who came among whom he had an extensive acquaintance. He was an exceptionally clever business man, and his fishing and hunting trips, of which he took many, the true phases of his nature were displayed. He was a sportsman who took delight in the beauties of nature and gave up much time to the study of the natural history, general and attractive disposition and a keen sense of humor. His employees were always loyal and received the reward of his consideration and kindness he owed much of his success in life.

Mr. Bill was born in Norwich March 13, 1844, the son of the late Hon. Henry and Julia O. Chapman Bill, a descendant of a sturdy and patriotic ancestry.

OBSTRUCTION PLACED ON MONTVILL ELECTRIC LINE

Tie With Stones and Gravel Found on Track by First Car.

The first trolley car from Norwich to New London was delayed ten minutes Monday morning by an obstruction which had been placed on the track, undoubtedly with the purpose of wrecking the car. The car, which was due to leave at about ten minutes before six, left Norwich on time and all went well until near the little schoolhouse on the track, where it first looked like a shadow, but as the glare of the headlights struck it, it was seen to be a heavy stone laid across the rails and backed up by a heap of stones and gravel.

By whom the obstruction was placed, pulling the car to a stop in front of the obstruction. The motor car, with the motor and one or two of the passengers, worked hard for about ten minutes to clear away the obstruction, but the car would have been a wreck, the obstacle having been placed at a point where a derailment would in all probability have proved serious for those in the car. By whom the stones were placed on the track is a mystery.

It will be recalled that a similar attempt was made a few years ago near Richardson's grove, the wreck being averted through the watchfulness of Motorman Charles Morgan. At that time the Connecticut company of the railroad was apprehensive of the guilty persons.

WASHINGTON SUPPER

Given at Buckingham Memorial by Sedgwick Woman's Relief Corps.

A Washington supper, on Tuesday evening, Feb. 22, was given at the Buckingham Memorial by Sedgwick W. R. C. No. 16, was well carried out to mark the anniversary of the signing of the Declaration of Independence and had an overflowing patronage, so that the tables had to be set the second time. At each place was a red hatched and a red apple with a small flag in it. American flags were placed on the tables and the small number ten years ago. In closing the toastmaster, the company on the officers in charge and said that they are highly thought of by the members.

The next number was a bass solo by Mr. Garrett, who was followed by a song by Chief Wade U. Webster of Williams department, who extended congratulations to the company. During the evening the company was entertained by a fire in his home city, and later that it had been gotten under control.

Foreman Murray said that Mayor Lippitt, who was to deliver an address on Washington, was unable to be present, much to the regret of the members.

TAFTVILLE

Vicar General Synnot of Hartford Official at Blessing of New Convent—Basketball—Clever—Burglar—Stole Watches in Village—Notes.

The Rt. Rev. John Synnot, vicar general of the Roman Catholic Diocese of Hartford, was in Taftville on Tuesday morning and at 6:30 o'clock officiated at the blessing of the new convent of the Sacred Heart parish. Besides the blessing of the building the necessary chemicals not only to digest food, but to enrich the fluids of the body so that it may no longer suffer from dyspepsia or other stomach trouble.

We will send you a quantity of these tablets free, so that their power to cure may be proven to you.

Thousands upon thousands of people are using these tablets for the cure of every known stomach disease. Know what you put into your stomach, and use discretion in doing so.

Stuart's Dyspepsia Tablets contain fruit and vegetable essences, the pure concentrated tincture of Hydrastis, Golden Seal, which tone up and strengthen the muscular lining of the stomach, and increase the flow of gastric and other digestive juices; lactose (extracted from milk), sugar, to strengthen the nerves controlling the action of the stomach and to cure nervous dyspepsia, pure aspartic acid, the highest digestive power and approved by the United States Pharmacopoeia.

One of the ablest professors of the University of Michigan recently stated that this Peppin was the only sample he had found that was absolutely pure—free from all animal impurities. Blameworthy to absorb, and prevent fermentation. They are deliciously flavored with concentrated Jamaica Ginger. In itself a well known stomach tonic.

Liquid medicines lose their strength the longer they are kept. Through evaporation, fermentation and chemical changes, hence Stuart's Dyspepsia Tablets are recognized as the only true and logical manner of preserving the ingredients given above in their fullest strength.

If you really doubt the power of these tablets, take this advertisement to a druggist and ask his opinion of the formula.

It is due your stomach to give it the ingredients necessary to stop its trouble. It costs nothing to try. You know what you are taking, and the same of these tablets. Above their value. All druggists sell them. Trial 50 cents. Send us your name and address and we will send you a trial package by mail free of charge.

Avoid Taking Cold

If people would only use ordinary precautions, the toll of disease and death directly traceable to neglected colds would be greatly lessened.

Learn to breathe properly. Don't expose the person needlessly to sudden changes of temperature, dampness and draughts. Get busy with a first sneeze and check a cold before it reaches the lungs.

A single remedy of the most highly recommended, is made by mixing two ounces of Glycerine, a half ounce of Virgin Oil of Pine compound pure and clear, and a half ounce of pure Whisky. You can buy these in any good drug store and easily mix them together.

It is a sure sign of good weather and fine roads. People like to get out into the open air. We furnish the best method, and if you'll take one of our coughs you'll say the same.
